### ***Magna Carta Monument – Parks ACT***

Falconer Architecture

*Project Architect*

June 2000– September 2001

Winning entry of the international design competition for a monument commemorating Australia's legal principles originated in the Magna Carta Document.

The project was managed by the National Capital Authority during the Schematic stage and by the project management company Weathered Howe for the Documentation and Construction phases.

Falconer Architecture was engaged to design, document and provide construction supervision for the project. We also undertook the exhibition component of the project selecting, engaging and guiding the mural artists for the two etched murals, as our subcontractors.

The project was highly detailed and delivered efficiently, on time and on budget.

*(Based in Canberra)*

*MGT Architects*

*Architect*

*October 1997- November 1997*

- Finalisation of construction documentation including the coordination of services and structure.

#### ***Office building, 30 storey - Kuala Lumpur***

*(Based in Canberra)*

*MGT Architects*

*Architect*

*April 1996- September 1997*

- Working with in a team of three architects I entered this project after final sketch plan submission. I was involved in clarifying the key elements of the design: the lobby, the north and south entry areas, the integration of the ramp into the facade, and the vertical glazing feature of the panoramic lift and high rise lift lobbies. I assisted in the decision making process that resolved most issues regarding the facade, as well as dealing with and integrating the services into the building.
- Main role was in the documentation, which I carried out under minimal supervision, covering both facade and interiors.
